

## PRC's Celebrate the Rain! Watershed Awareness/Rain Barrel Workshop

*Hosted by the Ross Township Environmental Advisory Council &  
the Ross Township Parks & Recreation Department*

**March 23, 2022 : 7 – 8 PM**

Ross Township Community Center  
1000 Ross Municipal Drive

Learn how to practice watershed protection and conservation in your own backyard. It's easier than you think!

Rain barrels are a great way to conserve water, to supply non-chlorinated water for gardening, and to keep excess water out of the stormwater system, thus alleviating some of the stormwater issues plaguing the region.

Workshop attendees will learn about the watershed, problems associated with stormwater runoff, ways to conserve and preserve water in their landscapes, and watershed friendly landscaping techniques.

Participants will receive a pre-made **FreeGarden RAIN 55-gallon rain barrel** (pictured above). Designed with the homeowner in mind, it is attractive and easy to install.

*Through the generosity of Ross Township,  
this Workshop is offered at a 50% reduced fee of \$40.00.*
