Independent Auditor's Report

Board of Commissioners
Ross Township, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ross Township, Pennsylvania (Township) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township, as of December 31, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 2 to the financial statements, the Township adopted Governmental Accounting Standards Board (GASB) Statement No. 68, "*Accounting and Financial Reporting for Pensions*," and GASB Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date*," which requires the Township to record its net pension liability/asset and related items on the government-wide financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other post-employment benefit plan information, and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The agency fund financial statement is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The agency fund financial statement is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the agency fund financial statement is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2015

Ross Township, Pennsylvania, hereafter referred to as the "Township," is pleased to present its financial statements developed in compliance with Governmental Accounting Standards Board Statement No. 34, entitled "Basic Financial Statements – and Management's Discussion and Analysis - for State and Local Governments" (hereafter "GASB 34"), and related standards. GASB 34 enhances information provided to the users of its financial statements. This section of the financial reporting package presents the discussion and analysis of the Township's financial performance during the year that ended on December 31, 2015. Please read this Management's Discussion and Analysis in conjunction with the Township's financial statements that follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of the following:

- Management's discussion and analysis (this section)
- Basic financial statements (including notes to the financial statements)
- Required supplementary information

Management's discussion and analysis is a guide to reading the financial statements and provides related information to help the reader to better understand the Township's government. The basic financial statements include notes that provide additional information essential to a full understanding of the financial data provided in the government-wide and fund financial statements. Required supplementary information is provided on the Township's budget to actual figures for the General Fund and the Sewer Fund.

The basic financial statements present two different views of the Township.

- *Government-wide financial statements*, the first two statements (pages 1-2) provide information about the Township's overall financial status.
- *Fund financial statements*, the remaining statements (pages 3-8) focus on individual parts of the Township's government. They provide more detail on operations than the government-wide statements. There are two types of fund statements:
 - *Governmental funds statements* show how general government services such as public safety, human services, public works, culture and recreation, and conservation and development are financed in the short term, as well as what remains for future spending.
 - *Fiduciary funds statements* reflect activities involving resources that are held by the Township as a trustee or agent for the benefit of others. Fiduciary funds are not reflected in the government-wide statements because the resources cannot be used to support the Township's programs.

Table A-1: Organization of the Township's Annual Financial Report

Required Components of the Annual Financial Statements

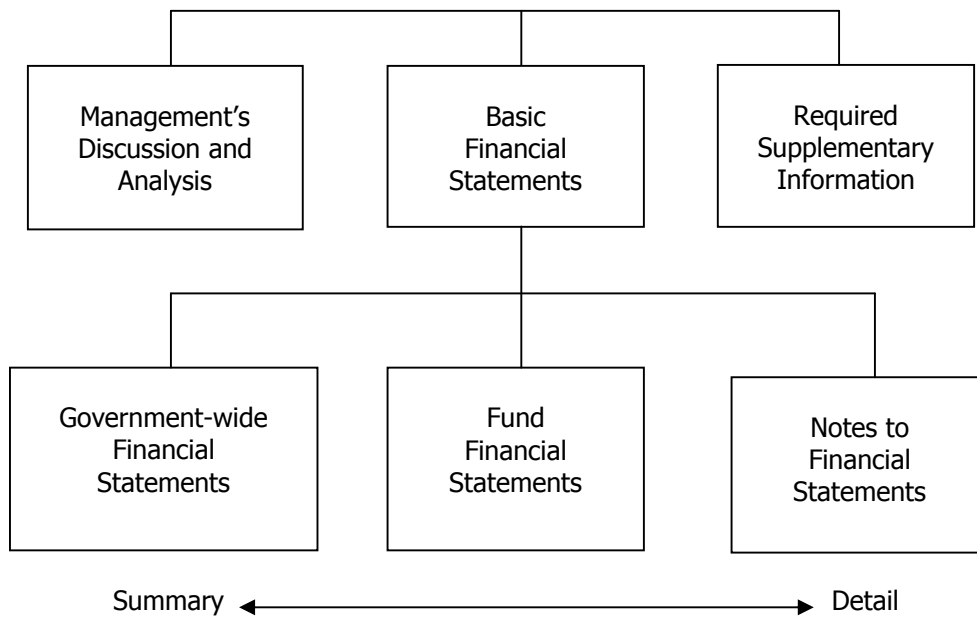

Table A-2 summarizes the major features of the Township's financial statements, including the area of the Township's activities they cover and the types of information they contain.

The remainder of the overview explains the structure and contents of the government-wide and fund financial statements.

Government-wide Financial Statements

Government-wide financial statements report information about the Township as a whole, using accounting methods similar to those used by private-sector companies.

- The statement of net position includes all the Township's assets and liabilities, except fiduciary funds, with the difference between the two reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business.
- The statement of activities focuses on how the Township's net position changed during the year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants, and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on local taxes for funding.

All changes to net position are reported using the economic resources measurement focus and the accrual basis of accounting, which requires that revenues be reported when they are earned and expenses be recorded when a liability is incurred, regardless of the timing of the related cash flow.

Net position is one way to measure the Township's financial position. Over time, increases or decreases in the Township's net position are one indicator of whether the Township's financial position is improving or deteriorating. However, other non-financial factors such as changes in the Township's property tax base and general economic conditions must be considered to assess the overall position of the Township.

The activities for the primary government include the Township's basic services such as general government, judicial, public safety, public works, human services, culture and recreation, and conservation and development.

Net position of the governmental activities differs from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets in the fund level statements are reported as expenditures when financial resources (money) are expended to purchase or build assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated as it does not provide or reduce current financial resources. Finally, capital assets and long-term debt do not affect fund balances.

Government-wide statements are reported on the accrual basis of accounting that involves the following steps to format the statement of net position:

- Capitalize current outlays for capital assets

- Report long-term debt as liabilities
- Depreciate capital assets and allocate the depreciation to the proper program/activities
- Allocate net position balances as follows:
 - Net investment in capital assets
 - Restricted net position is that with constraints placed on its use by external sources (creditors, grantors, contributors, or laws or regulations of governments) or imposed by law through constitutional provisions or enabling legislation
 - Unrestricted net position is net position that does not meet any of the above restrictions

Fund Financial Statements

Fund financial statements provide more detailed information on the Township's most significant funds, not the Township as a whole. Funds are accounting devices, i.e., a group of related accounts that the Township uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state law. Other funds are established to control and manage resources designated for specific purposes. Fund financial statements are reported using the modified accrual basis of accounting.

The Township has two kinds of funds:

- *Governmental funds* include most of the Township's basic services and focus on: (1) the flow in and out of cash and other financial assets that can readily be converted into cash, and: (2) the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting.

The relationship between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation that follows the governmental fund financial statements.

The Township adopts an annual budget for the General Fund, as required by state law, and the Sewer Fund. A budgetary comparison of the Township's General and Sewer Funds is presented as required supplementary information.

- *Fiduciary Funds* are those for which the Township is the trustee or fiduciary. This includes the pension trust funds. The Township is responsible to ensure the assets reported in these funds are used for their intended purposes. This fiduciary activity is reported in a separate statement of fiduciary net position. These funds are excluded from the Township's government-wide financial statements because the Township cannot use these assets to finance its operations. The fiduciary funds are reported using the accrual basis of accounting.

At December 31, 2015, the Township's total net position was approximately \$30.7 million. Of this amount, approximately \$17 million is accounted for by net investment in capital assets. There was an increase in current and other assets of approximately \$6 million due to the ongoing Public Works Project, with approximately \$5.17 million of bond proceeds available in current assets.

Change in Net Position

The following statement of activities represents the changes in net position for the years ended December 31, 2015 and 2014. It shows revenues by source and expenses by function.

The Township implemented Governmental Accounting Standards Board (GASB) Statements No. 68 and 71 during 2015. These Statements required a net restatement of (\$1,662,529) to net

position as of January 1, 2015 to record the Township's net pension asset and net pension liability.

Charges for services increased approximately \$2.2 million due to an increase in sewer charges and collections. General revenues increased by approximately \$1.2 million, mostly due to the noted increase in charges for services. General government expenses increased by approximately \$2.3 million due to staff enhancements, IT upgrades, park improvements, and municipal facility repairs. Public safety expenses increased by approximately \$865,000 due to contractual personnel expense increases and GASB No. 68 implementation. Highways, roads, and streets expenses increased by approximately \$180,000 due to the Public Works Building Project. Sanitation expenses increased by approximately \$116,000 due to the mandated ALCOSAN sewage treatment rate increase. Parks and recreation expenses increased by approximately \$537,000 due to Capital Park Improvement Projects and increased Department staffing cost.

Net Program Expenses

Net program expenses indicate the amount of support required from taxes and other general revenues for a program of the government. In 2015, taxes brought in \$14,588,894.

	2015 Total Cost of Services	2014 Total Cost of Services	2015 Net Cost of Services	2014 Net Cost of Services

Capital Assets

The Township's investment in capital assets at December 31, 2015, net of accumulated depreciation, was \$21,780,301. Capital assets consist primarily of land, buildings, and equipment. The following is a summary of capital assets at December 31, 2015:

	Capital Assets	
	2015 Governmental Activities	2014 Governmental Activities
Land	\$ 7,719,337	\$ 7,719,337

Total net capital assets	<u>\$ 21,780,301</u>	<u>\$ 19,558,028</u>

Detailed information about the Township's capital assets can be found in Note 4 of the notes to financial statements.

Debt Administration

At December 31, 2015, the Township had \$9,510,000 of debt outstanding as compared to \$3,530,698 as of December 31, 2014. This increase is due to a 2015 Series Bond refunding and issuance as further discussed in Note 7 of the footnotes. The following is a summary of long-term debt for the 2015 year:

	Balance at December 31, 2014	Additions	Reductions	Balance at December 31, 2015	Due Within One Year
Governmental Activities:					
Bonds payable	\$ 2,630,000	\$ 9,955,000	\$ (3,075,000)	\$ 9,510,000	\$ 420,000
Capital lease payable	533,681	-	(219,416)	314,265	197,239
Compensated absences	<u>386,649</u>	<u>13,049</u>	<u>-</u>	<u>399,698</u>	<u>-</u>
Total long-term liabilities	<u>\$ 3,550,330</u>	<u>\$ 9,968,049</u>	<u>\$ (3,294,416)</u>	<u>\$ 10,223,963</u>	<u>\$ 617,239</u>

The Township has an unfunded Other Post-Employment Liability (OPEB) of \$25,581 at December 31, 2015, a decrease of \$4,896 from December 31, 2014. The liability results from health insurance payments that will be made on behalf of police officers after retirement.

See Note 7 for more information regarding long-term debt.

TRUST AND AGENCY OPERATIONS

Pension Trust Funds

The Township maintains two defined benefit pension plans, the General Employees Plan and the Police Plan, for the benefit of its full-time employees. The Township remits the required employee contribution withholdings and the annual actuarially calculated contributions directly to the respective Plan Trust. Employee benefit calculations are determined by a contracted actuary for the defined benefit plans and monthly benefit payments are handled by a disbursing agent.

The General Employees Plan has a net pension asset of (\$161,464) and the Police Plan has a net pension liability of \$3,481,279 at December 31, 2015. In addition, more detailed information regarding municipal pension plans can be found in Note 8 of the note to financial statements section of this report.

GOVERNMENTAL FUNDS

The Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of governmental funds is to provide information on inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the Township's net resources available for spending at the end of the year.

The Township's governmental funds include the General Fund and various special revenue funds. The General Fund is the chief operating fund for the Township. Special revenue funds are restricted to specific legislated use. The major funds are shown on the statement of revenues, expenditures, and changes in fund balance in the financial statements.

GOVERNMENTAL FUND REVENUES

Governmental fund revenues by source at December 31, 2015 and 2014 were as follows:

	2015	2014
Revenues:		
Taxes	\$ 14,595,065	\$ 14,387,488
Licenses and permits	1,432,821	1,089,488
Fines and forfeits	155,516	160,623
Interest, rent, and royalties	18,326	15,186
Intergovernmental	1,446,415	1,443,434
Charges for services	10,344,690	8,610,976
Miscellaneous	230,451	198,778
Operating transfer in	6,062,231	1,452,927
Proceeds from capital lease	-	152,938
Total Revenues	<u>\$ 34,285,515</u>	<u>\$ 27,511,838</u>

While a majority of the revenue sources were relatively flat or changed slightly in 2015 when compared to 2014, Licenses and permits increased by approximately \$343,000, and Charges for services increased by approximately \$1.7 million. These increases were due to large commercial and residential developments in the Township during 2015 and increased Sewage Treatment rates and collections, respectively.

GOVERNMENTAL FUND EXPENDITURES

Governmental fund expenditures by function at December 31, 2015 and 2014 were as follows:

	2015	2014
Expenditures:		
General government	\$ 1,737,122	\$ 1,935,203
Public safety	7,350,193	6,909,043
Fire and building inspection	1,543,444	1,413,808
Highways, roads, and streets	8,071,293	5,113,961
Sanitation	7,551,992	7,435,789
Parks and recreation	994,864	551,353
Library	451,536	437,884
Senior citizen services	67,028	74,370
Miscellaneous	335,179	379,020
Debt service	3,326,640	511,374
Operating transfer out	5,310,305	1,452,927
Total	<u>\$ 36,739,596</u>	<u>\$ 26,214,732</u>

While most of the Township's expenditures were held relatively flat or changed slightly in 2015 when compared to 2014, highways, roads, and street expenditures increased by

approximately \$2.96 million due to the Public Works Building Project. Debt service expenses increased by approximately \$2.8 million due to refunding of prior General Obligation Bonds.

GOVERNMENTAL FUND BALANCES

Ending balances for governmental funds at December 31, 2015 and 2014, as restated, were as follows:

	2015	2014
	Governmental	Governmental
<u>Fund</u>	<u>Funds</u>	<u>Funds</u>
General	\$ 9,041,647	\$ 9,031,771
Unspent bond proceeds	5,176,270	-
Sewer	3,234,944	1,839,954
Capital improvements	98,544	-
Highways and streets	57,813	1
Traffic impact	11,501	-
Total	<u>\$ 17,620,719</u>	<u>\$ 10,871,726</u>

The reasons for the changes in governmental fund balances are explained above in the governmental funds revenues and expenditures sections.

BUDGETARY HIGHLIGHTS

The Township adopts an annual appropriated budget for its General Fund and Sewer Fund. Detailed information about the Township's 2015 General Fund and Sewer Fund budget can be found in Required Supplementary Information.

Overall the Township had a unfavorable variance of (\$1,185,089) for actual results in comparison to budget for the General Fund. Numerous factors went into these results. General Fund debt service expenditures had a negative variance of (\$2,843,434) due to the aforementioned 2015 Series debt issuance.

ECONOMIC CONDITIONS AND NEXT YEAR'S BUDGET

Ross Township is very fortunate, in that a large portion of our revenue stream is from our business taxes related to our high-end retail district; the recent economic environment affected those businesses has improved. In general, the Pittsburgh area seems to have been insulated from the large swings in the housing markets. The Township has continued to implement programs to reduce costs whenever possible and will continue to work toward reducing overall expenditures.

The Township believes that the future economic outlook, as it affects the Township residents, will remain positive into the foreseeable future.

CONTACTING THE TOWNSHIP'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the Township's finances and to demonstrate the Township's accountability. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

YEAR ENDED DECEMBER 31, 2015

Net Change in Fund Balance - Governmental Funds

\$ 6,748,993

Amounts reported for governmental activities in the statement of activities are difference because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital additions	\$ 3,260,761	
Capital disposals	(53,566)	
Depreciation expense	<u>(984,922)</u>	2,222,273

The actuarially accrued other post-employment benefit (OPEB) obligation for the police and general employees is not recorded on the fund financial statements.

4,896

Changes in the net pension asset and liability and related deferred outflows of resources do not affect current financial resources and, therefore, are not reflected on the fund statements.

(621,799)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

(19,130)

The issuance of long-term obligations (bonds and capital leases) provides current financial resources to governmental funds, while the repayment of the principal on long-term obligations consumes the current financial resources of governmental funds. This amount is the net effect of these differences in the treatment of the long-term debt and related items.

(6,660,584)

The Township's increase in the value of the net investment in joint venture does not represent a revenue that would be recorded in the governmental funds.

30,762

In the statement of activities, certain operating expenses - accumulated employee benefits (vacation and sick days) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

1. REPORTING ENTITY

Ross Township, Pennsylvania (Township) operates under the First Class Township Code (Code). In accordance with the Code, the Township is governed by an elected Board of nine Commissioners (Commissioners) and a Manager who is appointed by the Commissioners. The Township provides services in many areas to its residents, including various general government services, public safety, highway maintenance, sanitation, and health and welfare.

No potential component units meet the criteria for inclusion in the Township reporting entity.

Please refer to Note 10 for a description of joint ventures, a jointly governed organization, and a related organization of the Township.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information on all of the non-fiduciary activities of the Township. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from any business-type activities or component units for which the primary government is financially accountable. As a general rule, any effect of interfund activity has been eliminated from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. Grants and contributions are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly excluded among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Agency funds are also reported on the accrual basis; however, they have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property, earned income, local services, and franchise taxes, as well as licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The Township reports the following major governmental funds:

The *General Fund* is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Improvements Fund* is used to account for financial resources to be used for the acquisition, construction, or improvement of major capital projects and facilities.

The *Sewer Fund*, a special revenue fund, is used to account for resources derived from sewer billings to Township residents and related disbursements. Sewer treatment services are provided by the Allegheny County Sanitary Authority (ALCOSAN). The Township bills customers based on ALCOSAN rates plus the Township surcharge (\$4.50 per 1,000 gallons of water consumed). The Township then pays ALCOSAN for providing services.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

The Township also reports one other governmental fund, which is the Liquid Fuels Fund. Additionally, the Township reports the following fiduciary funds:

The *Pension Trust Funds* are used to account for the assets held by the Township in a trustee capacity for future payment of retirement benefits to employees or former employees. The Township has two separate pension trust funds: the General Employees Plan and the Police Plan.

The *Agency Fund* is used to account for amounts collected and held on behalf of third parties. Escrow deposits are received for building projects that are being undertaken within the Township.

Cash and Cash Equivalents

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price.

Interfund Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds."

Capital Assets

Capital assets, which include buildings, machinery and equipment, vehicles, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the governmental activities column in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the Township as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at estimated historical cost or historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the Township chose to include all such items regardless of their acquisition date or amount. The Township was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the Township are depreciated using the straight-line method over the following estimated useful lives:

Buildings	40 years
Building improvements	20 years
Infrastructure – bridges and sewers	50 years
Infrastructure – roads	20 years
Vehicles	2-8 years
Machinery, equipment, and fixtures	5-20 years

Compensated Absences

Calculation of the liability is determined by the vacation and sick-day payments that would be made if employees were to leave or retire from the Township. Compensated absences accrue when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The liability for compensated absences has typically been liquidated by the General Fund in prior years.

Employees earn vacation, based upon their anniversary date, for use during the current calendar year. The number of days earned each month varies depending upon length of service and union contracts. Vacation pay cannot be carried over; therefore, it is not recorded as a liability.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Employees earn sick days based upon their contract. General employees (those other than police officers) are not paid sick leave upon termination, therefore, no liability is accrued. Police officers earn sick leave at the rate of 10 sick days in the first year, 15 sick days in the second year, and 18 sick days in each of the following years. Unused sick days may be accumulated, up to a maximum of 250 days. Upon retirement, officers are entitled to sell back one sick day for every four days of accumulated sick time. Using the vesting method, all officers with 10 years of service or more are presumed to stay until retirement and $\frac{1}{4}$ of sick leave is accrued.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of any applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses.

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures/expenses.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position and/or fund balance that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Township has one item that qualifies for reporting in this category in conjunction with pension accounting requirements. The net difference between projected and actual earnings on pension plan investments is recorded as deferred outflows of resources related to pensions on the government-wide financial statements. This amount is determined based on an actuarial valuations performed for the plan. Note 8 presents additional information about the pension plan.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Township has two items that qualify for reporting in this category: unavailable revenue is reported only on the balance sheet and represents property and other taxes and sewer charges which will not be collected within the available period. This amount will be recognized as an inflow of resources in the period the amounts become available.

Fund Balance

In the fund financial statements, governmental funds report fund balance in categories based on the level of restriction placed upon the funds. These levels are as follows:

- Nonspendable – This category represents funds that are not in spendable form. The Township did not have any nonspendable fund balance as of December 31, 2015.
- Restricted – This category represents funds that are limited in use due to constraints on purpose and circumstances of spending that are legally enforceable by outside parties.
- Committed – This category represents funds that are limited in use due to constraints on purpose and circumstances of spending imposed by the Township's highest level of decision-making authority. The Commissioners are the highest level of decision-making authority for the Township and can make such commitment via an ordinance or resolution prior to the end of the fiscal year. A commitment can only be modified or removed by an equal action of the Commissioners. The Township did not have any committed fund balance as of December 31, 2015.
- Assigned – This category represents intentions of the Township to use the funds for specific purposes but do not meet the criteria to be classified as committed. The Commissioners have authorized the Township's management to assign fund balance. This category includes amounts set aside for sewer and capital improvements expenditures.
- Unassigned – This category includes the residual classification for the Township's General Fund and includes all spendable amounts not contained in other classifications.

The Township would typically use restricted fund balance first, followed by committed fund balance, and then assigned fund balance, as appropriate opportunities arise; however,

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

the Township reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Net Position

Accounting standards require the classification of net position into these components – net investment in capital assets; restricted; and unrestricted. These classifications are defined below:

- Net investment in capital assets – The net investment in capital assets component of net position consists of capital assets net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources is included in the same net position component (restricted or unrestricted) as the unspent amount.
- Restricted – The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- Unrestricted – The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

An annual appropriated budget was adopted for 2015 for the General Fund and the Sewer Fund on the same basis of accounting described above for governmental fund types.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Management control over the other Special Revenue Fund is exercised through either their relationship with the General Fund or the terms of grant awards. The Township uses the following procedures in establishing the budgetary data reflected in the financial statements:

- The proposed budget is published or made available for public inspection at least twenty days prior to the date set for the adoption of the budget.
- Final action is not taken on the proposed budget until after at least ten days of public notice.
- The Commissioners legally adopt the budget prior to December 31 of each preceding year.

Appropriations may be transferred between departments only if approved by a Commissioner's resolution. Department heads, in consultation with the Township Manager, may transfer funds within departments. The Commissioners also have the authority to enact supplemental appropriations and emergency appropriations. No emergency or supplemental appropriations were necessary during the year. The budget and actual financial statements presented for the General Fund and Sewer Fund display departmental information as the Township defines departments for budgetary purposes. For the year ended December 31, 2015, General Fund expenditures for fire and building inspection, the library, senior citizen services, miscellaneous, and debt service exceeded their budget. Budgetary amounts reflected in the statement of revenues, expenditures, and changes in fund balance - budget and actual incorporate any budgetary transfers approved by the Commissioners throughout the year. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Encumbrances

The Township uses encumbrances accounting for budgetary reporting, wherein purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation. Funding for all encumbrances lapses

at year-end and re-appropriation is required by the Commissioners. As of December 31, 2015, the Township had no outstanding encumbrances.

Adopted Pronouncements

The requirements of the following Governmental Accounting Standards Board (GASB) statements were adopted for the Township's 2015 financial statements.

GASB Statement No. 68, *"Accounting and Financial Reporting for Pensions,"* and Statement No. 71, *"Pension Transition for Contributions Made Subsequent to the Measurement Date."* These Statements establish new financial reporting requirements for most governments that provide their employees with pension benefits (see Note 8). As a result of this implementation, the government-wide net position for governmental activities as of January 1, 2015 was restated by (\$1,662,529) to record the Township's net pension liability and net pension asset.

Pending Pronouncements

GASB Statement No. 72, *"Fair Value Measurement and Application,"* effective for fiscal years beginning after June 15, 2015 (the Township's financial statements for the year ending December 31, 2016). This Statement addresses accounting and financial reporting issues related to fair value measurements.

GASB Statement No. 73, *"Accounting for Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB 68 and Amendments to Certain Provisions of GASB Statements 67 and 68,"* effective for fiscal years beginning after June 15, 2015 (the Township's financial statements for the year ending December 31, 2016) – except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68, which are effective for fiscal years beginning after June 15, 2016 (the Township's financial statements for the year ending December 31, 2017). This Statement establishes requirements for pensions and pension plans that are not administered through a trust meeting specified criteria (those not covered by Statements No. 67 and 68).

GASB Statement No. 74, *"Financial Reporting for Postemployment Benefit Plans Other than Pension Plans,"* effective for fiscal years beginning after June 15, 2016 (the Township's financial statements for the year ending December 31, 2017). This Statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement replaces Statement No. 43.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

GASB Statement No. 75, *“Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,”* effective for fiscal years beginning after June 15, 2017 (the Township’s financial statements for the year ending December 31, 2018). This Statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement replaces the requirements of Statement No. 45.

GASB Statement No. 76, *“Hierarchy of Generally Accepted Accounting Principles for State and Local Governments,”* effective for fiscal years beginning after June 15, 2015 (the Township’s financial statements for the year ending December 31, 2016). This Statement identifies the hierarchy of generally accepted accounting principles (GAAP), reduces this hierarchy to two categories of authoritative GAAP, and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement supersedes Statement No. 55.

GASB Statement No. 77, *“Tax Abatement Disclosures,”* effective for fiscal years beginning after December 15, 2015 (the Township’s financial statements for the year ending December 31, 2016). This Statement requires state and local governments for the first time to disclose information about tax abatement agreements, and is designed to provide financial statement users with essential information about these agreements and the impact that they have on a government’s finances.

GASB Statement No. 79, *“Certain External Investment Pools and Pool Participants,”* effective for fiscal years beginning after June 15, 2015 (the Township’s financial statements for the year ending December 31, 2016). This Statement addresses accounting and reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for the election to measure all of its investments at amortized cost for financial reporting purposes.

GASB Statement No. 80, *“Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14,”* effective for fiscal years beginning after June 15, 2016 (the Township’s financial statements for the year ending December 31, 2017). The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units.

GASB Statement No. 82, *“Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,”* effective for fiscal years beginning after June 15, 2016 (the Township’s financial statements for the year ending December 31, 2017). The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *“Financial Reporting for Pension Plans,”* No. 68, *“Accounting and*

3. DEPOSITS AND INVESTMENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investments including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes also allow pooling of governmental funds for investment purposes. The deposit and investment policy of the Township adheres to state statutes. Governmental funds are either maintained in demand deposits or invested with the Pennsylvania Local Government Investment Trust (PLGIT). There were no deposit or investment transactions during the year that were in violation of either the state statutes or the Township's policy.

Deposits

The following is a description of the Township's deposit risk:

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. The Township does not have a formal deposit policy for custodial credit risk.

As of December 31, 2015, \$250,000 of the Township's \$16,760,109 governmental funds bank balance was insured by the Federal Deposit Insurance Corporation (FDIC). The remaining bank balance was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits have carrying amounts of \$14,761,897 as of December 31, 2015.

Cash Equivalent Investments

The Township's cash equivalent investments in PLGIT cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. The fair value of the Township's position in the external investment pool is the

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

same as the value of the pool shares. All investments in external investment pools that are not SEC registered are subject to oversight by the Commonwealth of Pennsylvania.

As of December 31, 2015, the entire PLGIT book balance of \$981,936 (bank balance of \$981,938) is considered to be a cash equivalent for presentation on the statement of net position and governmental fund balance sheet.

The following is a description of the Township's investment risks:

Credit Risk – The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The Township has no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2015, investments in PLGIT have received an AAAM rating from Standard & Poor's.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside entity. The Township does not have a formal investment policy for custodial credit risk. The Township's investments in PLGIT cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form.

Concentration of Credit Risk – The Township places no limit on the amount the Township may invest in any one issuer. The Township has no investments of greater than 5% with one issuer.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of the Township's investments. The Township does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. All investments have an average maturity of less than one year.

Agency Fund

The Township maintains a bank account for the Agency Fund. The balance of this account is reflected in the statement of fiduciary net position. As of December 31, 2015, none of the Township's \$3 Agency Fund bank balance was insured by the FDIC; as such, the remaining bank balance was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an

approved custodian in the institution's name. These deposits have carrying amounts of \$3 as of December 31, 2015.

Pension Trust Funds

The Pension Trust Funds' investments are held separately from those of other Township funds. Assets in the Pension Trust Funds are stated at fair value. The Commissioners determine the investment managers of the General Employees Pension Plan and the Police Pension Committee determines the investment managers of the Police Pension Plan. The Commissioners and investment managers meet periodically with the trustees to discuss the general categories of investments to be made. Currently, the investments agreed upon are equities, fixed income, and real estate. Investments were consistent with those authorized.

As of December 31, 2015, pension trust fund investments consisted of the following:

Deposit or Investment Type	Fair Market Value	Investment Maturities from December 31, 2015			
		Less than 1 year	1-5 Years	6-10 Years	More than 10 years

Custodial Credit Risk – For investments, custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the Pension Trust Funds will not be able to recover the value of their investments or collateral securities that are in the possession of an outside entity. The Pension Trust Funds do not have a formal investment policy for custodial credit risk. The Township's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2015, the Township's entire pension cash balance of \$558,720 (bank and book balance) was exposed to custodial credit risk.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of the Pension Trust Funds' investments. The Pension Trust Funds do not have a formal deposit or investment policy that limits investment maturities as a means of managing their exposure to fair value losses arising from increasing interest rates. The average maturities of the various investments are disclosed above.

5. REAL ESTATE TAXES

Real estate taxes are an enforceable lien on property as of January 1 and are levied on July 1. These taxes are billed and collected by an outside tax collection agency. Taxes paid through August 31 are given a 2% discount. Amounts paid after October 31 are assessed a 10% penalty.

The Township is permitted by the First Class Township Code of Pennsylvania to levy real estate taxes up to 30 mills on every dollar of assessed valuation for general Township purposes. Additional taxes may be levied for certain specified purposes. For 2015, Township real estate taxes were levied at the rate of 2.7 mills for general purposes. The millage is applied to assessed market valuation as determined periodically by Allegheny County, Pennsylvania. Assessed valuation was \$2,480,624,391 for 2015.

6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables, payables, and transfers at December 31, 2015 were as follows:

Fund	Interfund Receivable	Interfund Payable	Transfers In	Transfers Out
Major Funds:				
General	\$ 1,001	\$ -	\$ 1,028,981	\$ 5,033,250

Total	<u>\$ 1,001</u>	<u>\$ 1,001</u>	<u>\$ 6,062,231</u>	<u>\$ 6,062,231</u>

Transactions between funds which are not expected to be repaid are accounted for as transfers. In those cases when repayment is expected within the next fiscal year, the transactions are accounted for through the various due from and due to accounts. The transfer from the General Fund to the Capital Improvements Fund was to transfer bond proceeds intended to cover expenses incurred as part of the new Public Works facility construction. The transfer from the Sewer Fund represents transfers to the General Fund for operating purposes. The transfer from the Liquid Fuels Fund to the General Fund represents reimbursements made to the General Fund for expenditures on behalf of the Liquid Fuels Fund.

7. LONG-TERM DEBT

General Obligation Bonds

In 2015, the Township issued General Obligation Bonds (Series 2015 Bonds) in the amount of \$9,955,000 to refund \$2,630,000 of outstanding Series 2009 Bonds and to use remaining proceeds to build a new Public Works facility. The Series 2015 Bonds bear interest at rates ranging from 0.35% to 2.95% and are scheduled to mature annually through December 2034.

Annual debt service requirements to maturity related to the above-discussed bonds are as follows:

8. PENSION PLANS

Summary of Significant Accounting Policies

Financial information of the pension plans (Plans) is presented on the accrual basis of accounting.

Benefits and refunds are recognized when due and payable in accordance with the terms of the Plans. Employer contributions to the Plans are recognized when due as required by applicable law.

Plan Descriptions

The Township administers two single-employer, defined benefit pension plans established under the provisions of Act 205 of 1984 of the Commonwealth of Pennsylvania (Act). The Plans cover substantially all full-time employees. The Plans are governed by the Township's Board, which has delegated the authority to manage certain Plan assets to the Township Manager. Plan provisions and contribution requirements are established and may be amended by the Township. The activity of the Plans is reported as the Pension Trust Funds in the accompanying financial statements. Separate plan financial statements are not available.

At December 31, 2015, Plan membership consisted of the following:

Benefits Provided – General Employees Plan

Retirement Benefit - A participant is entitled to begin receiving retirement benefits after completing 25 years of service and attaining age 55 for employment that began after November 1, 1998. Public works employees hired before November 1, 1998 are entitled to receive benefits after completing 20 years of service and attaining age 60. The scheduled monthly retirement benefit is 55% of the participant's final average salary earned during the highest three years of employment for office employees or the last 36 months of employment out of the last five years for public works employees, plus an additional monthly benefit of \$25 for each completed year of service in excess of 25 years.

Survivor Benefit - If a participant's death occurs before retirement eligibility, the participant's estate receives a refund of contributions made by the participant, plus interest. If a participant's death occurs after the participant has qualified for retirement, the survivor annuity is based on 50% of the pension the participant was receiving or entitled to receive on the date of death.

Disability Benefit - If a participant becomes totally and permanently disabled as a result of a service related accident or sickness, the participant is entitled to receive a monthly disability benefit. The scheduled benefit is 25% of the participant's average compensation at the time the disability was incurred.

Benefits Provided – Police Plan

Retirement Benefit – A participant is entitled to begin receiving retirement benefits after completing 25 years of service and attaining age 50 for employment. The scheduled monthly retirement benefit is 50% of the participant's final average monthly compensation earned during the last 36 months of employment, plus a service increment to participants who retire after the completion of 26 years of service of \$100 per month. Compensation if

hired prior to January 1, 2005 is total compensation. For those employees hired after January 1, 2005, compensation is the basic rate of pay, including longevity.

Survivor Benefit – If a participant's death occurs before retirement eligibility, the participant's estate receives a refund of contributions made by the participant, plus interest. If a participant's death occurs after the participant has qualified for retirement and the participant is survived by an eligible spouse, the benefit payable is 50% of the amount the participant was receiving or entitled to receive on the date of death, for life. In the event of the spouse's death, the participant's children under age 18 (age 23 if attending college) will share the benefit.

Disability Benefit – If a participant becomes totally and permanently disabled as a result of accident or sickness occurring in the line of duty, the participant is entitled to receive a monthly disability benefit. The scheduled benefit is 50% of the participant's salary at the time the disability was incurred, offset by Social Security disability benefits as a result of the same injury.

Cost-of-Living Adjustments – Benefit terms provide for annual cost-of-living adjustments to each member's retirement allowance subsequent to the member's retirement date. On the anniversary of the participant's retirement, a retiree will receive an increase in the monthly benefit equal to the percentage change in the Consumer Price Index during the last year. The total increase of all increases may not exceed 30% of the original benefit, nor can the benefit ever exceed 75% of the final average monthly compensation used to compute the original benefit. Participants who retire on or after January 1, 2007 will receive cost-of-living adjustments on January 1 following the date which is 12 months after the date of retirement.

Deferred Retirement Option Program (DROP)

The Police Plan includes a DROP. Active participants who have attained normal retirement age are eligible to participate for a period of three years beginning on the first day of any calendar month coinciding with or next following the date the individual attains normal retirement age. Participation shall automatically end on the third anniversary of the effective date of participation in the DROP, or if earlier, on the date of their death or the date his covered employment terminates. Distribution of a DROP account to a DROP participant is made after the later of the date participation ends for any reason other than death or the date the participant files the application for distribution. At December 31, 2015, there were five employees participating in the DROP Plan. The amount held by the Police Plan pursuant to the DROP at December 31, 2015 was \$155,807.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

Contributions

The Plans are funded by the Township on an annual basis pursuant to the provisions of the Act. The Act requires that annual contributions be based upon the calculation of the Minimum Municipal Obligation (MMO). Employees are not required to contribute under the Act; such contributions are subject to collective bargaining. For the year ended December 31, 2015, participating employees in the General Employees and Police Plans were required to contribute 3% and 5% of their compensation, respectively. During the year, the Township made its required contributions of \$136,014 and \$515,830 to the General Employees and Police Pension Plans, respectively, based upon the MMO.

Net Pension Liability (Asset)

Measurement Date and Actuarial Assumptions – The Township's net pension liability (asset) was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of January 1, 2015. There were no plan changes between the January 1, 2015 valuation date and the December 31, 2015 liability measurement date. Standard actuarial techniques were used to roll forward the total pension liability from the valuation date to the measurement date.

The components of the net pension liability (asset) of the Plans at December 31, 2015 were as follows:

	General Employees	Police
Total pension liability	\$ 11,920,252	\$ 28,070,373
Plan fiduciary net position	12,081,716	24,589,094

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation performed on January 1, 2015 and rolled forward to December 31, 2015 using the following actuarial assumptions, applied to all periods in the measurement:

	General Employees	Police
Actuarial assumptions:		
Investment rate of return	7.25%	7.25%
Projected salary increases	4.50%	4.50%
Underlying inflation rate	2.50%	2.50%
Cost-of-living adjustments increase	2.50%	2.50%

Mortality rates were based on UP-94 Mortality Table with rates set forward 7 years for all disabled lives.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Changes in Actuarial Assumptions – No significant changes were made to the actuarial assumptions used in the 1/1/15 valuation since the previous actuarial valuation on 1/1/13.

Investment Policy – The Plans’ policies in regard to the allocation of invested assets are established and may be amended by the Board. It is the policy of the Board to pursue an overall asset allocation strategy that identifies a portfolio structure and sets a long-term percentage target for the amount of the Plans’ market value that is to be invested in each asset class. Numerous asset classes are considered to provide the Plans with a diversified investment portfolio.

Long-Term Expected Rate of Return – The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The following was the asset allocation policy and best estimates of arithmetic real rates of return for each major asset class included in the Plans’ target asset allocation as of December 31, 2015:

Asset Class	Target Allocation		Long-Term Expected Real Rate of Return	
	General Employees	Police	General Employees	Police
Domestic equity	48.00%	48.00%	6.00%	6.00%
International equity	12.00%	12.00%	6.25%	6.25%
Fixed income	30.00%	30.00%	1.25%	1.25%
Real estate	10.00%	10.00%	5.00%	5.00%
	<u>100.00%</u>	<u>100.00%</u>		

Rate of Return – The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For the year ended December 31, 2015, the annual money-weighted rate of return on the General Employees and Police Plan investments, net of investment expense, was 2.13% and 2.11%, respectively.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Concentrations – At December 31, 2015, the Plans had no investments (other than mutual funds or other pooled investments) in any one issuer that represented 5% or more of either Plan's fiduciary net position.

Discount Rate – The discount rates used to measure the total pension liability for the General Employees and Police Plan were 7.25% and 7.25%, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Township's contributions will be made based on the yearly MMO calculation. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate – The following presents the net pension liability (asset) of the Plans calculated using the discount rates described above, as well as what the Plans' net pension liabilities (assets) would be if they were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rates:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
General Employees Plan	\$ 937,634	\$ (161,464)	\$ (1,115,279)
	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Police Plan	\$ 6,760,298	\$ 3,481,279	\$ 725,025

Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended December 31, 2015, the Township recognized pension expense of approximately \$1,273,643. At December 31, 2015, the Township reported deferred outflows of resources related to pensions from the following sources:

9. OTHER POST-EMPLOYMENT BENEFITS (OPEBs)

Plan Description

In addition to the pension benefits described in Note 8, the Township provides post-employment health care benefits to all retired police officers, in accordance with collective bargaining agreements between the Township and the Township Police. Effective for retirees during 1996 and subsequent years, the Township pays \$200 per month towards the retiree's own health care costs until the officer is eligible for Medicare. Retirees not eligible for Medicare shall be paid this monthly stipend for life.

Funding Policy

Expenditures for post-retirement health care benefits are recognized in the General Fund when paid by the Township. During 2015, total disbursements from the General Fund for eleven beneficiaries were \$25,400.

The Township's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a closed period not to exceed 30 years. The following table shows the component of the Township's annual OPEB cost for

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

the year, the amount actually contributed, and changes in the Township's net OPEB obligation:

Annual required contribution	\$ 39,980
Interest on net OPEB obligation	1,219
Adjustment to annual required contribution	<u>(1,695)</u>
Annual OPEB cost	39,504
Contributions made	<u>(44,400)</u>
Increase in net OPEB obligation	(4,896)
Net OPEB obligation - beginning of year	<u>30,477</u>
Net OPEB obligation - end of year	<u><u>\$ 25,581</u></u>

The Township's annual OPEB cost, the percentage of annual OPEB cost contributed and the net OPEB obligation were as follows:

Fiscal Year Ending	Annual OPEB Cost	% Contributed	Net OPEB Obligation
December 31, 2013	\$ 40,162	96.11%	\$ 28,939
December 31, 2014	40,138	96.17%	30,477
December 31, 2015	39,504	112.39%	25,581

The schedule of funding progress for the post-employment healthcare benefits is as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Healthcare cost trend assumptions are based on recent experience and anticipated future cost increases under the Township's medical plans. Amounts determined regarding the funded status and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future.

Projections and calculations of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and covered members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

For the January 1, 2015 actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included a 4% investment rate of return, which is the expected long-term investment yield on investments that are expected to be used to finance the payments of benefits. The unfunded actuarial accrued liability is being amortized using the level dollar method over a period of 30 years on a closed basis.

10. JOINT VENTURES AND RELATED ORGANIZATIONS

Joint Ventures

Northland Public Library

Northland Public Library (Library) is a public library that is considered to be a municipal authority by the Commonwealth of Pennsylvania. The governing body of the Library is its Board of Trustees, which is comprised of seven members appointed by the elected officials of its five supporting municipalities (one of which is the Township). Since no individual municipality has control, the Library is not considered a component unit of any one member community.

The Library meets the criteria for a joint venture as it is an organization that results from a contractual arrangement that is owned by two or more participants as a separate and specific activity subject to joint control, in which participants retain an ongoing financial responsibility.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

The Township, per contractual agreement, is obligated to pay a share of the budgeted expenses of operation annually. The Township's contribution is based upon circulation, population, and assessed valuation. Such payments amounted to \$451,536 for the year ended December 31, 2015.

The Township has no equity interest in the Library.

The Library issues separate financial statements, which are available at the Northland Public Library, 300 Cumberland Road, Pittsburgh, PA 15237.

Lowries Run Joint Owned Sewer

Lowries Run Joint Owned Sewer (Lowries Run) is a jointure formed to handle the sewer activity in a particular area of the northern suburbs of Pittsburgh. The governing body of Lowries Run is its Board of Directors, which is comprised of representatives from its two member entities (the Township and the McCandless Township Sanitary Authority). Since no individual entity has control, Lowries Run is not considered a component unit of any one member.

Lowries Run meets the criteria for a joint venture, as it is an organization that results from a contractual arrangement that is owned by two or more participants as a separate and specific activity subject to joint control, in which participants retain an ongoing financial responsibility.

The Township is responsible for a pro rata share of net expenses incurred by this entity which could not be met with existing resources. The Township's contribution for 2015 was \$3,189. The Township maintains a 50% equity interest in Lowries Run, and if Lowries Run were to be liquidated, the Township would receive 50% of the assets. The Township holds an equity interest in Lowries Run valued at \$1,603,890 as of December 31, 2015.

Lowries Run issues separate financial statements, which are available at the McCandless Township Sanitary Authority, 418 Arcadia Drive, Pittsburgh, PA 15237.

Jointly Governed Organization

Girty's Run Joint Sewer Authority

The Township, in conjunction with three other neighboring municipalities, created the Girty's Run Joint Sewer Authority (Authority) to handle the sewer systems and the main trunk line within the Girty's Run Watershed. The governing Board of the Authority is

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

comprised of two representatives from each of the member municipalities. Except for user fees related to the sewer system usage based on the volume of water consumed by individual residents and commercial enterprises within the watershed for each respective municipality, no participant has any obligation, entitlement, or residual interest. The Township's user charges related to the Authority for the year ended December 31, 2015 approximated \$1.26 million. Separate financial statements for the Authority are available at their office.

Related Organization

Ross/West View EMS

Ross/West View EMS (EMS) is a related organization in that a majority of its governing Board is appointed by the Commissioners, without the Township being financially accountable for the organization. The EMS Board is appointed by the Township and operates independently of any ongoing involvement of the Commissioners. Separate financial statements for EMS are available at their office.

11. COMMITMENTS AND CONTINGENCIES

Sanitary Sewer System

In 1997, the United States Environmental Protection Agency (USEPA) ordered 51 communities tributary to ALCOSAN, which includes the Township, whose sanitary sewers had been identified as being subject to wet weather overflows. The Township signed an Administrative Consent Order (ACO) in January 2004. The ACO details the timetable for completion of each phase which involved inspecting, mapping, correcting, and monitoring the sewer system. The Township is subject to a civil penalty for untimely completion of each term or provision of the ACO. The Township has paid no civil penalties for the year ended December 31, 2015. The Township has estimated the completion cost of the projects mandated by the ACO to be approximately \$22 million through the year 2015.

Public Works Facility Construction

In 2015, the Township began construction on a new public works facility. The project will be paid for with proceeds from the 2105 Bond Series as further described in Note 7. Construction commitments outstanding related to this project as of December 31, 2015 totaled approximately \$4.4 million.

ROSS TOWNSHIP, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2015

Other

Various claims and lawsuits are pending against the Township. In the opinion of the Township management and solicitor, the outcome of these claims and lawsuits will not have a material adverse effect on the accompanying financial statements.

12. RISK FINANCING

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

For its workers' compensation insurance coverage, the Township participates in the Municipal Risk Management Worker's Compensation Pooled Trust (Trust), a public entity risk pool operated for the benefit of 214 cities, municipalities, boroughs, townships, and municipal authorities. Trust underwriting and rate-setting policies are established after consultation with an independent actuary and certain approvals of the Pennsylvania Department of Labor and Industry as mandated by Act 44 of 1993 (Act 44). All Trust participants may be subject to a supplemental assessment/dividend based on the overall experience of the participants, pursuant to Act 44. Dividends received in 2015 were \$159,221. Each participant of the Trust agrees to jointly and severally assume and discharge the liabilities arising under the Worker's Compensation Act and Occupational Disease Act of each and every participant of the Trust. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years the Trust purchased excess insurance coverage with statutory limits. The retention for this excess coverage is \$750,000 per occurrence. There were no significant reductions in insurance coverage from coverage in the prior year. Political subdivisions joining the Trust must remain members for a minimum of four years; a member may withdraw from the Trust after that time by giving ninety days notice, subject to approval by the Trust actuary under specified circumstances related to the continued fiscal stability of the pool. At the time of withdrawal, the participant is responsible for their share of assessments but has no claim on any other assets of the Trust. Estimates of any additional assessments are unknown.
